

SUPPORT VEHICLE AGREEMENT

Support vehicles are an important asset to the Everest Challenge, and we welcome your assistance in putting on this year's race. Mechanical support and medical support in possible emergencies are invaluable. However, there are rules that must be understood and followed. Only drivers who have submitted a copy of this agreement will be allowed to participate in the Everest Challenge. We do not want to disqualify any riders, but we will do so if it becomes necessary to insure the safety of other riders, and the integrity of the Everest Challenge.
